The details of the R 1,400,000 allocation are reflected in the capital budget summary below.

Capital Budget

The prolonged drought being experienced in the Greater Karoo and other parts of the Province is impacting negatively on the water supply to towns and communities. To this extent the Department of Local Department has continued to conduct regular municipal drought assessments, in order to determine the extent and impact of the drought; drought risk categorization, based on the findings of the assessments and the development and implementation of drought response and recovery action plans in municipalities.

During the November 2020 Municipal Drought Assessments, it was found that several towns in the Central Karoo remain on medium to high risk in terms of their water security. It was further acknowledged that while the Department of Local Government as the District have observed significant success in the implementation of the Drought Recovery Action Plans, there remains a need to continue with said implementation in order to ensure water resilience in the medium to long term.

To this extent the Department of Local Government has allocated an amount of R 1,400,000 to Beaufort West Municipality through the Central Karoo District Municipality for the following project:

➤ Merweville : Drilling, testing and equipping of new boreholes – Phase 2.

The first phase of the project was completed during the 2020/21 financial year.

The current capital budget of R 23,465,061 will increase with R 1,400,000 to R 24,865,061.

Refer to supporting document Table B5 – Adjustments Capital Expenditure Budget by vote and by funding as well as the detailed capital budget, **Annexure 2**.
