PART 1 - IN-YEAR REPORT

1. Mayor's Report

1.1 In-Year Report – Monthly Budget Statement

1.1.1 Implementation of the budget in accordance with the SDBIP

No comments for July 2022.

1.1.2 Financial problems or risks facing the municipality

The current financial position of the municipality remains under pressure. The Western Cape Provincial Government approved an intervention in Beaufort West Municipality in terms of section 139(5) of the Constitution. A mandatory Financial Recovery Plan (FRP) was approved and are now being implemented. Directors are urged to identify and promote effectiveness and efficiencies within their respective directorates and to keep their expenditure within the approved budget.

1.1.3 Other relevant information

The information contained in this report relate to July 2022 only and exclude the pre-audited figures of the 2021/2022 financial year. The pre-audited figures for the 2021/22 financial year will be included once the annual financial statements have been completed and submitted to the Auditor General for audit at the end of August 2022.

2. Resolutions

IN-YEAR REPORT 2022/2023

This is the report will be presented to Council at their next meeting:

RECOMMENDATION:

a) That Council notes the monthly budget statement and any supporting documentation for July 2022.

3. Executive Summary

3.1 Introduction

Section 71 of the MFMA states that the Accounting Officer of a Municipality must by no later than 10 working days after the end of each month submit to the mayor of the Municipality and the relevant Provincial Treasury in the prescribe format on the state of the Municipality's budget.

This report presents the current state of the budget implementation and reasons for variances and possible action to be taken.

3.2 Consolidated performance

3.2.1 Against annual budget

Revenue by Source

Year-to-date revenue accrued were R 59,078 million or R 28,336 million above the year-to-date budget projections for July 2022. The variance is also due to the first equitable share installment received in July and the annual billing of the property rates and service charges.

Refer to Table C4 for more detail on revenue by source.

Operating expenditure by type

The total expenditure for the month amounted to R 14,457 million. This is R 15,846 million below year-to-date budget projections for July 2022. This variance is due to the bulk Eskom account for July that will only be received in August as well as debt impairment and depreciation and amortization that will be recognized on a quarterly basis. Other expenditure items is expected to increase month on month as the year progress.

Refer to Table C4 for further details on expenditure by type.

Capital expenditure

The approved capital budget for the 2022/2023 financial year amounts to R 50,828 million. The year-to-date expenditure for July 2022 amounts to zero. The capital budget is mostly funded from national grant allocations, hence the expenditure is driven by the timing when the funding

are received by the municipality. Given that it is the first monthly of the financial year and supply chain process that are under way, expenditure is expected to increase as the year progress.

Refer to Table C5 and SC12 for more detail on capital expenditure.

Cash flows

The municipality started the financial year with a positive net cash position of R 2,720,527 and an investment balance of R 13,437,214. This figure is provisional and will be finalized when the audit is completed. These opening balances will be contained in the reporting balances of August once the provisional / pre-audited opening balance will transferred to the 2022/23 financial year. The net increase in cash for the month amounted to R 14,080 million.

Refer to Table C7 for more detail on cash flows.

3.3 Material variances from SDBIP

No comments for July 2022.

3.4 Remedial or corrective steps

- Revenue should be improved by fully implementing the adopted credit control and debt collection policies of the municipality as well as the revenue improvement initiatives outlined in the Financial Recovery Plan;
- Limit non-priority spending and implement stringent cost-containment measures;
- Reducing budget spent on cost of employment, specifically overtime and standby cost.

4.1.2 Table C2 Monthly Budget Statement - Financial Performance (standard classification)

This table reflects the operating budget (Financial Performance) in the standard classifications which are the Government Finance Statistics Functions and Sub-functions. These are used by National Treasury to assist the compilation of national and international accounts for comparison purposes, regardless of the unique organizational structures used by the different institutions.

The main functions are Governance and administration; Community and public safety; Economic and environmental services; and Trading services. It is for this reason that Financial Performance is reported in standard classification, Table C2, and by municipal vote, Table C3.
