PART E: DISCUSSION

The proposed application for a consent use on agricultural zoned land for the purpose of renewal energy facilities is correct. The application also includes the subdivision of portions of the land for the purpose of a long-term lease to be registered as well as the registration of servitudes and exemptions. The application for Permanent Departure referring to the setback must be reconsidered by adding Portion 5 of Farm Platfontein No. 28 to the application for consent use.

The following addition information is requested in the final application:

- If there are any active bonds registered on only of the properties the affected bondholder will be required to give consent for the proposed application to process.
- Indicate if the areas applicable to the long-term lease will still be able to be used for agricultural use.
- Include all relevant conveyancer certificates
- Ensure that the proposed development complies with the development parameters as set out in the Beaufort West Municipal Standard Zoning Scheme, 2020, specifically referring to setbacks.
- Clearly indicate all servitude area to be exempted according to Section 24(1)(f)(i) of the Beaufort West Land Use Planning Bylaw.
- The site development plan submitted has all the relevant information captured. It must also be noted that this plan is only applicable to the Land Use Planning application and that construction plans need to be submitted to Beaufort West Municipality for approval prior to construction.
