1. PURPOSE

Please note that the purpose of the pre-application input is to ensure that the application is correct and complete and not to assess the merit of the application.

2. LAND USE APPLICATION: LEGISLATIVE CONTEXT

Application is made for:

2.5 Approval of Site Plan (1816E-SP-2 dated 06/2023).

2.6 It is noted from the application submitted, Red Cap Energy (Pty) Ltd ('Red Cap') and their affiliate companies are proposing to develop four solar facilities, namely Mura 1 Solar PV Facility, Mura 2 Solar PV Facility, Mura 3 Solar PV Facility, and Mura 4 Solar PV Facility, and an associated grid connection, collectively known as the Mura Solar PV Development between Loxton and Beaufort West. Mura 4 Solar PV Facility falls partially within the Beaufort West REDZ.

2.7 It should further be noted that approval for the consent use (if given) will not be a permanent right but will be given for the duration/life span of the facility. Any renewable energy structure and associated infrastructure that has reached the end of its productive life or has been abandoned, including buildings, cables, and roads, must be removed by the owner. A renewable energy structure is considered abandoned when the structure fails to continuously operate for more than two years.

3. LOCUS STANDI (AUHTORITY TO BRING APPLICATION)

3.1. The pre-application includes a power of attorney from the appointed director of the 8 Mile Inv 434 Pty Ltd, H A Kotze, the owner of the properties in question and authorizes Johan van der Westhuysen of Urban Dynamics to submit the application.

4. AGRICULTURE

4.1. The motivation report provided does, to some extent, reference agricultural potential and practices on the farm and what, if any, the impact of this development proposal on the existing farm potentially would be. It will have to be established, during the continuing application processes, if a land development application is necessary. Any application that utilizes an area of five hectares or more of agricultural land that has been cultivated or irrigated during the 10-year period immediately preceding the proposed land development that involves urban development, will trigger a provincial land use application in terms of section 53 of LUPA (Land Use Planning Act, Act 3 of 2014, read together with section 10 of the LUPA regulations). On face value the proposed development does not appear to require a provincial land use application, however it must be verified.

4.2. It is further noted that the necessary approvals in terms of the Subdivision of Agricultural Land Act, 1970 (Act 70 of 1970) (SALA), for long term leases, will need to be obtained from the National Department of Agriculture, Land Reform and Rural Development.

5. CONVEYANCER'S CERTIFICATE AND LAND CLAIMS

5.1. It is noted that all Title Deeds formed part of the application, and that a conveyancing certificate issued, confirms that there are no restrictive conditions in the Title Deeds that need to be removed.

5.2. Furthermore, it is noted that the Commission on Restitution of Land Claims has confirmed no land claims are currently registered against the subject properties.

- 6.1. It is not clear whether the applicant has submitted the necessary Environmental Authorization for the Mura 4 Solar PV Facility and Associated Infrastructure. This should be confirmed by the applicant when the application is formally submitted.

7. DEVELOPMENT PARAMETERS AND SITE DEVELOPMENT PLAN

- 7.1. Although the Site Development Plan (included within the application) may be considered as a general illustration of the intended development, the municipality will only be in a position to determine the final elements which should be incorporated within the Site Development Plan (as contemplated in Section 23(2) of Beaufort West Municipal Standard Zoning Scheme By-Law, 2020), after its assessment of the application.
- 7.2. In terms of Section 23(5) of the Beaufort West Municipal Standard Zoning Scheme By-Law, 2020, the detailed Site development plan, complying with such measures as may be required by the municipality (ito. Section 23(2)), will need to be submitted to- and approved by the municipality prior to commencement of any development on the relevant land unit.
