Comprehensive overview of proposal:

**This land development application concerns the land use rights to establish the *Kraaltjies wind energy facility (WEF)* as consent use on two (2) properties located in the Beaufort West municipal area. These properties have a combined land extent of 3959 ha and up to 20 wind turbines will be constructed with a development footprint of about 40 ha. Thus, the extent of land used for the renewable energy structures will be about 1% of the combined farming area. The *Kraaltjies WEF* will have a combined generating capacity of up to 240 MW. The generated power will be connected to a proposed new on-site 11-33/132kV substation via medium voltage (11-33kV) cables from where the power will be fed into the national grid via a 132kV overhead power line to the Varsfontein or proposed Galenia substation. The approximate central coordinates of the properties on which turbines will be placed are the following: 32°52'47.24"S 22°34'48.12"E, as a point in the northern land segment of Portion 25 of Farm 374.**
