The municipality endeavours to investigate any query and give feedback within fourteen working days of the receipt of a **valid dispute**. A query is enquiry about an account with a dispute being a formal process. It should be noted that an "my account is incorrect" without being able to substantiate why will not be regarded as a valid dispute and process dictate that a dispute will follow an enquiry or query lodged first. There is a sequence of remedial process before we get to a dispute.

A customer who has lodged a dispute is not relieved of the responsibility to maintain regular payment on his account. In the event of an account holder reasonably querying any item or items on the monthly municipal account, no action shall be taken against the account holder provided the account holder has paid, by due date, an amount equal to the monthly average monetary value of the three most recent un-queried accounts in respect of the service under investigation, as well as all un-queried balances on such account, and, provided further that, such query is made in writing by the account holder or is recorded in writing by the Chief Financial Officer or his designate on behalf of the account holder.

If a customer has received a response to a query but is still not convinced that the account is correct, the customer will still be liable for the full outstanding amount and will be subject to credit control action.

A customer may appeal to the Municipal Manager against the finding of the municipality or its authorised agent. Such an appeal must be made and lodged with the municipality within 21 (twenty-one) days after the notification of such finding has been received and must set out the reasons for the appeal and be accompanied by a deposit, as determined in the approved tariffs, for the testing of a measuring device, if applicable.

6.5 METERING

Within practical and financial limits, the municipality will endeavour to provide meters for every consumable service. All meters will be read monthly on approximately the same date, if possible. If it is not possible to read all meters monthly the consumption will be estimated. Customers are entitled to request verification of meter readings and accuracy within reason but may be held liable for the cost thereof. Customers will be informed of meter replacements.

Customers will be allowed to communicate their meter reading to the municipality with a photo of the meter reading through WhatsApp or email, using the address provided under Contact Details at the end of the policy. However, the municipality will also read the meter at least once every twelve months.

If a service is metered but it cannot be read due to constraints or circumstances out of the control of the municipality or its authorised agent, and the customer is charged for an estimated consumption, the account following the reading of the metered consumption must articulate the difference between the actual consumption and the average consumption, and the resulting credit or debit adjustments.

6.6 ACCOUNTS, BILLING AND PAYMENT

- 6.6.1 The municipality shall produce and mail one consolidated monthly bill to consumers for *services supplied or available* (inter alia, electricity, water, refuse and sewerage charges) and for *rates levied* on property within the municipal area unless, for whatever reason, the rates account has not been consolidated with the services account in which case separate monthly accounts will be mailed. These accounts will be produced in accordance with meter reading cycles at regular intervals or as prescribed by law.
- 6.6.2 The municipality shall undertake to mail the consolidated account to the customer address, in South Africa, as specified by each customer. However, non-receipt of an account does not negate the responsibility of the customer to pay the amount owing by due date nor prevent interest charges and debt collection procedures. In the event of non-receipt of an account, the onus rests on the account holder to obtain a free copy of the most recent account, before the due date.
- 6.6.3 The consumer shall, in writing, notify the municipality of any change of address, including an e-mail address, and contact details. Notwithstanding the fact that a consumer has not received an account as a result of his failing to notify the municipality of his change of address or due to delays on the part of external service providers, the customer is nevertheless liable for payment of such account. Any change of address only becomes effective when the notification of the change is received and acknowledged by the municipality.
- 6.6.4 Accounts must be paid in full on or before the due date as indicated on the account. Failure to comply with this section shall result in debt collection action being instituted against the customer. Interest on arrears, at prime plus one percent (Prime+1%), in the absence of any determination, as prescribed by law, will accrue after due date if the account remains unpaid irrespective of the reason for non-payment.
- 6.6.5 Bulk consumers may at the discretion of the municipality be notified of their unpaid accounts prior to the commencement of the debt collection process.
- 6.6.6. Payments for accounts must be received at a municipal pay-point by close of business on or before the due date. In the case of any electronic payments, the money must be received in the municipal bank account no later than the close of business on the due date. In the case of monies paid to agents, the money must be deposited with the agent prior to the close of business on due date and proof thereof may be required to validate any claims.

The following methods of payment and payment points can be used:

- a) Electronic banking payments (EFT) directly into the municipality's account. EFT's must be made at least 48 hours before the applicable due date where it is made from banks other than the official bank of the municipality.
- b) At any municipal office during office hours (Cash & Card payments)

- 6.6.7 The consumer acknowledges that any agent used for transmitting payments to the municipality is at the risk and cost of the consumer. In addition, the consumer must take into account the transfer time of the particular agent.
- 6.6.8 Receipt of the total outstanding monies will be allocated to the credit of the account in full. If a debtor pays only part of any amount due, the Chief Financial Officer shall allocate such payment as follows:
- a) firstly, to any unpaid interest raised on the account.
 - b) secondly, to any other sundry debtors (miscellaneous);
 - c) thirdly, to housing rents and instalments.
 - d) fourthly, to any unpaid property rates collection charges.
 - e) fifthly, to any unpaid water charges.
 - f) sixthly, to any unpaid wastewater (sewerage) charges.
 - g) seventhly, to unpaid refuse; and
 - h) lastly, to any unpaid electricity charges.
- 6.6.9 A customer shall not be entitled to allocate any payment made to any portion of the total debt due to the municipality.
- 6.6.10 Where an account is not settled in full, any lesser amount tendered and accepted shall not be deemed to be in full and final settlement of such an account.
- 6.6.11 The municipality or its authorised agent must, if administratively possible, issue a duplicate account to a customer on request, at a cost as determined by Council.
- 6.6.12 Where incorrect debits were raised or omitted levies regarding services, the accounts queried will be rectified for the year, in which the error was found or reported, and two preceding years -
- Unless it can be motivated to Council that it is not economical, fair, or in the public's best interest at the time, to levy for one or both of the two preceding years, and Council approves the recommendation.

6.7 CUSTOMER ASSISTANCE PROGRAMMES

6.7.1 Water leakages

- a) If the leakage is on the customer's side of the meter, the customer will be responsible for the payment of all water supplied to the property.
- b) Where suitable proof of repair costs is provided, the Municipality may, at its sole discretion, provide relief on the charge raised above the average consumption at the cost price of the service. The responsibility to control and monitor his/her water consumption rests with the consumer.

6.7.2 Rate rebates

Categories of property or owners may qualify for exemptions, rebates and reductions of rates as determined in the municipality's property rates policy.

6.7.3 Arrangements for settlement of arrear accounts

- a) If a customer cannot pay his/her account with the municipality then the municipality may enter into an agreement with the customer for an extended term of payment according to the applicable category of the customer, in terms of the official Guidelines for the Payment of Arrears adopted by Council resolution. The customer must -
 - i) on the official agreement form, adopted by Council for that purpose, sign an acknowledgement of debt.
 - ii) sign a consent to judgement.
 - iii) provide a garnishee order/emolument order/stop order (if he/she is employed).
 - iv) acknowledge that interest could be charged at the prescribed rate.

- b) The municipality reserves the right to raise the deposit requirement of debtors who seek arrangements.
- c) Where an arrangement is made outside of the stipulations of the official Guidelines for the Payment of Arrears adopted by Council, such payments will be accepted, subject to the normal credit control and debt collection procedures.
- d) The municipality reserves the right to convert the conventional electricity service of a customer with consumption in arrears, to a pre-pay electricity meter, with the same applicable to water meters (conventional to be replaced by pre-paid where applicable);

- 7.2.2 The service agreement, on the prescribed form, will be entered into prior to the provision of services and prior to the consumer taking occupation of the premises.
- 7.2.3 Before being provided with electricity, water and/or other customer services, and prior to taking occupation of premises, every customer shall enter into a service agreement with the municipality in which, inter alia, the municipality may require the customer to agree that the electricity, water and/or other services, supplied by prepaid meter systems, may be used for credit control purposes to collect arrears in respect of all outstanding debt.
- 7.2.4 Owners may allow tenants to sign separate agreements with the municipality, which the municipality may at its own discretion accept or reject.
- 7.2.5 On default by a tenant, the owner will be the debtor of last resort.
- 7.2.6 A new service agreement will only be entered into once all amounts owed by a consumer on other debtor accounts are settled in full.
- 7.2.7 Where municipal services are used/consumed or made use of, and the owner, tenant, or occupants of a property, have not entered into nor completed an agreement for such services, the owner responsible for the payment of rates on the property will be billed for the metered consumption and all municipal service charges applicable to the property.
- 7.2.8 The service agreement shall indicate that transfer of a property may not be registered until the municipality issues a clearance certificate which reflects that all amounts due in connection with that property for municipal service fees, property rates and other municipal taxes, levies and

duties during the two years preceding the date of application for the certificate, have been fully paid.

- 7.2.9 Application forms are available at the municipal offices and the application process must occur at least ten (10) working days prior to taking occupation of the premises. This will ensure that services are available when occupation is taken. Failure to adhere to the timeframe may result in customers not having the services available when occupation is taken. Once the application has been approved, a service agreement will be entered into, and services will commence.
- 7.2.10 The Municipality will render the first account after the first meter reading cycle following the date of signing the service agreement or as soon as is administratively possible.

Deposits are payable when new customers sign service agreements and when existing customers move to a new supply address. All deposits shall be paid at least 10 (ten) days prior to occupation of the property or prior to the date on which the services are required, if not required on date of occupation. Failure to comply with this clause may result in a delay in the

connection of services and the Council shall not be liable for any loss or prejudice suffered by a customer as a result thereof.

7.3.2 All applicants for municipal services may be checked for creditworthiness including checking information from banks, credit bureau, other local authorities, trade creditors and employers.

- a) by written notice require such person to restore access at his/her own expense within a specified period; and
- b) as a matter of urgency, without prior notice restore access and recover the cost from such person.

7.4.4 If the municipality is unable to read any meter on any property because the meter has been rendered inaccessible, the municipality shall estimate the consumption of the service concerned and thereafter bill the accountholder for the monetary value of such estimated consumption.

7.4.5 In the event that the municipality continues to be unsuccessful in obtaining access to the property and, therefore, is unable to obtain an accurate meter reading, the Chief Financial Officer or his authorised representative may disconnect the supply.

7.4.6 Voluntary readings -

These will be permitted provided the municipality obtains any final reading should the consumer move to another supply address.

Consumers may be liable for a fee to cover the costs of obtaining a reading if no advance warning is given and special arrangements are required to obtain a reading.

The municipality is entitled to make suitable adjustments to the readings should a consumer fail to ensure that a final reading is obtained.

An audit reading during the normal reading cycles must be obtained at least once every 12 months. If a special audit reading becomes necessary, this will be done at the cost of the consumer.

The consumer may elect to supply voluntary readings subject to compliance with these rules. The Chief Financial Officer may, however, cancel the voluntary reading convenience if the consumer fails to render readings on two or more consecutive occasions.

- 7.5.10 Should the Chief Financial Officer be of the opinion that the termination of services, in respect of the account is in arrears, could result in the endangerment of the life of any person, the Chief Financial Officer may appropriately restrict rather than terminate the services in question.

7.10.1 To encourage prompt payment and/or to reward regular payers the municipality may consider incentives for the prompt payment of accounts or payment by debit or stop orders.
