(143rd Amendment: June 2025)

12. PENSIONERS

Registered owners of Residential Properties who are pensioners qualify for special rebates according to gross monthly household income of all Pensioners permanently residing on that property. To qualify for the rebate a property owner must be the registered owner of a property which satisfies the requirements of the definition of residential Property. This property owner must on 1 July of the financial year:

- Occupy the property as his/her Primary Residence, and
- Be at least 60 years of age, or
- Has been declared medically unfit even if not yet 60 years of age, and
- Be in receipt of a gross monthly household income not exceeding the amount determined by Council during the Municipality's budget process.
- Must annually submit proof to the CFO that he or she is registered with the Department of Social Development as a recipient of an old age or disability grant.
- Market value of the property not exceeding R 1 100 000
 - R 2 315 and under - 30%
 - R 2 316 to R 6 000 - 20%
 - R 6 001 to R12 000 - 10%

An owner must annually provide credible proof of his or her economic/financial position to the Chief Financial Officer.

13. RESIDENTIAL PROPERTIES

For all residential properties the municipality will not levy a rate on the first R15 000 of the property's market value. The R15 000 is inclusive of the R15 000 statutory impermissible rate as per section 17(1)(h) of the Municipal Property Rates Act.

Additional rebate of R100 000 for all residential properties with a market value less than R190 000 reduction determined in the Rates policy.

14. REBATES IN RESPECT OF A CATEGORY OF OWNERS OF PROPERTY ARE AS FOLLOWS:

Owners of National Monuments be levied at residential tariff provided that –

- The buildings are in a satisfactory condition, and
- The Director Engineering Services has during the second Month of each financial year submitted a report that the building is in a satisfactory condition in order that the municipality may consider whether to grant a rebate.

15. That the following tariff be charged where an owner requests a supplementary valuation in terms of section 11 (2) (a) of the Property Valuation Ordinance, 1993.

- Travel expenses at R2.69 per km, plus
- Valuation fees of R2385.40

(Special Council: 28 May 2002: Item 1.2)

(143rd Amendment: June 2025)

16. AGRICULTURE

As a result of, and considering, limited rate-funded services supplied to such properties in general, the contribution of agriculture to the local economy, the extent to which agriculture assists in meeting the service delivery and development obligations of the community, and the contribution of agriculture to the social and economic welfare of farm workers, the council bills a reduced rate (as set out below) in respect of properties subject to agricultural use.

This rate rebate is 91% of the rate levied on Residential Properties, which rate on properties subject to agricultural use does not exceed the maximum ratio to the rate on Residential Property prescribed in the MPRA Rate Ratio Regulations.

The council will, when it imposes rates and sets tariffs for the budget year, grant an additional rebate of 65% on the rates payable in respect of agricultural properties where –

- there are no municipal roads next to the property;
- there is no municipal sewerage to the property;
- there is no municipal electricity to the property;
- water is not supplied by the municipality;
- refuse removal is not provided by the municipality.
- No other rebates will be granted to properties that qualify for the Agricultural rebate.
For the avoidance of doubt properties that qualify for the agricultural rebate will not be entitled to the residential rate rebate.

17. AVAILABILITY FEES

(By-Law regarding the levy of availability fees: PK 1209 of 15.12.1977)

a) POLICY

- i) Accessibility fees on undeveloped ERVEN 200 m and larger are charged only where the service is available, where the erven border a street front and where there is a sufficient street front to place a building.
- ii) When the electricity or water supply to an erf is shut off for any reason and thus remains close for a continuous period of six months, availability fees are charged from the first day of the month immediately following the expiry of the six months.
- iii) In the event that the owner of an erven who pays the basic minimum fee is subsequently provided with a connection to the water or electricity supply, the availability fee ceases from the commencement of the ordinary service fee.
- iv) The City Engineer is authorized to charge availability fees in accordance with the provision of the applicable by-law and considering existing policies of the Council.
- v) The fees payable to the Council on a monthly basis by the owner of any property that is not connected to the electricity or water supply as well as the sewerage network of the Council, but which in the opinion of the Council can reasonably be connected in this way, as well as owners of prepaid meters who does not buy water is determined by the Council by Special Resolution.

(Finance Committee 2332/1.9 of 27 June 1984)

Restriction application Model

A new model for the application of Water Restrictions has been drawn up in accordance with the guidelines contained in the Provincial Gazette Extraordinary No. 7811 of Monday, August 21, 2017. The model determines the monthly water consumption versus water availability and makes recommendations on which Phase of Restrictions are required.

(143rd Amendment: June 2025)

It is recommended that where consumption is less than availability, the next level of restrictions be adopted by the council within a month and where the availability of water begins to improve over a three-month period, the restriction is relaxed.

The table below proves the table contained in the Proclamation.

Column 1	Column 2	Column 3	Column 4	Column 5

92. Water flat rate (VAT excluded)

A flat rate structure for consumers where consumption is not measured and a water prepaid meter or conventional meter has been bypassed, removed, or damaged will be levied a water flat rate equivalent to water availability charge. Since the present conventional meter will be replaced with a smart prepaid water meter, all customers who have conventional water meters that are subjected to the water flat rate will not be levied a water basic service charge.
